

NATURE: CROWNS

PLAY AND CREATE

Head outside for creative play to make Nature Crowns.

Essential materials include;

- found natural items like twigs, leaves, feathers
- a card base (we love corrugated card for this as children can thread into the little holes, as well as glue, attaching
- glue (PVA, Craft or Hot glue)

(it could also be stapled to size once dry, or like below, holes and ribbons or elastic to tie together once dry.

Arrange the base of your crown on newspaper and layer up with some glue (dries clear)

Arrange all your collection, keeping in line with the base (then it won't poke you in the eye)

When dry, you are ready to wear (match this with your wand, and you are ready to rule the Kingdom.
