

SUMMER CAMP INTENSIVES

At **SUMMER ART CAMP INTENSIVES** we have a fun and enriching Summer Camp program for your creative artist. Choose one, two or three days to delve right into the camp offerings, with a range of topics, and art materials to inspire the creative process with age appropriate art techniques each day.

Camp allows more time for students to really get larger and lengthier projects and to specialise in an area they are keen to explore. Each day a series of topics and techniques, where the children can choose their pathway, explore different materials and themes as well as try out new techniques. A series of artworks will be completed each day, or work on one larger scale piece from conception to completion. Something for every young artist. Two age groupings of offering age appropriate materials and techniques and for those die-hard campers who return year after year, we make sure there are no repeat projects.

** Please note Clay camp is separate and runs after Art camp, students are welcome to book both and stay the day
